

Sabse badhiya business

Importance is the most important thing. One should realize the importance of what he is doing and why he is doing and what to do

Author is sharing his experience of why this is a good business. Importance of this business.

Here are few point that author shared with us regarding this business.

1. Low investment, low overhead: this business has very low operational cost
2. Minimal liability
3. No special permission or license needed from government to run this business
4. No employee needed means no need to pay wages to employee who work for you
5. No boss means you are your own boss
6. No risk means you can start it with very low cost and investment and even that cost is refundable if you are not interested in this.
7. Work from home at your own time and ease
8. Fewer and flexible hours , decide your own working hours
9. Time compounding means create partners under you and their time also adds to you to that means you are adding more time to your work
10. No income limit means you can decide your own income. Quality of work you do the more income you earn
11. No discrimination means anyone can do this business like from any caste, religion , country etc
12. Tax benefit from government
13. Inelastic demand of product means evergreen product like soap, paste like daily consumable items
14. Account disability means **“no udhari”**
15. Inexpensive training means training material is available and will be handled by company.
16. Training time flexibility means you can choose your own training time.
17. Early income potential means you can start earning from day one or even after years also.
18. Inflation and recession free income means the product will still sold even in the time recession because they have daily consumable items.
19. No regulatory problem means that will be handled by company
20. Willable income means income will still come if we don't work.
21. Security of income
22. Retirement income means retirement gets secured.
23. No disaster effect on business as there is very less or no capital so disaster can not affect this business.
24. Mentorship program
25. World wide business means you can operate anywhere in the world.

BWW has made the platform for everyone to achieve their dream and to make their dream come true by the help of this business model.

To make the business as a success first run this business as a hobby. Then make small decision and try to implement them. Start thinking business as a investment.

You must have commitment for your business. After this start thinking it like a business not as a hobby.

Time should be spent on this business. Discipline is also must. Decision making power is also needed.

After this one can feel the power of pain and pleasure.
